

ROYAL MANDI HOUSE

PRODUCT REQUIREMENTS DOCUMENT

Website Development Specification — royalmandihouse.in

Project: royalmandihouse.in

Version: 1.0

Date: June 2026

Prepared for: Royal Mandi House, Mangaluru

Status: APPROVED FOR DEVELOPMENT

1. Executive Summary

Royal Mandi House is a newly launched premium halal restaurant located in Hampankatta, Mangaluru, Karnataka. Specializing in authentic Arabic Mandi, Biryani, Broasted Chicken, Kunafa, and a wide range of Indian and Chinese dishes, the restaurant operates 7 days a week from 12:00 PM to 12:00 AM.

This PRD defines the full product requirements for the development of the official restaurant website at royalmandihouse.in. The website will serve as the restaurant's primary digital presence, enabling discovery, menu browsing, customer engagement, and SEO-driven organic traffic growth in the Mangaluru market.

The website must communicate a premium, royal brand identity consistent with the restaurant's gold and black visual language, while remaining fully functional on mobile devices where the majority of local traffic originates.

2. Business Objectives

2.1 Primary Goals

- Establish a professional digital presence for Royal Mandi House in Mangaluru
- Rank on the first page of Google for searches such as 'mandi restaurant Mangalore', 'Arabic mandi Mangalore', 'halal restaurant Hampankatta'
- Convert website visitors into walk-in customers or phone orders
- Build brand recognition and credibility through reviews, gallery, and content
- Support future growth features such as online ordering and reservations

2.2 Success Metrics

Metric	Target	Timeline
Google ranking for 'mandi restaurant Mangalore'	Page 1, Top 5	3 months post-launch
Monthly organic website visitors	500+	Month 3
Average page load time (mobile)	Under 3 seconds	At launch
Mobile usability score (Google)	90+	At launch

Metric	Target	Timeline
Google Business Profile views	1000+/month	Month 2
Phone calls from website	Trackable via UTM	At launch

3. Target Audience

3.1 Primary Users

- Residents of Hampankatta, Balmatta, and surrounding Mangaluru neighborhoods
- Food enthusiasts searching for Arabic Mandi and halal food in Mangaluru
- Families looking for dine-in experiences in the ₹200–600 per person range
- Young professionals (18–35) discovering restaurants through Google Maps and Instagram
- Tourists visiting Mangaluru seeking authentic Arabic cuisine

3.2 Device Usage

Based on Mangaluru market data, approximately 80% of restaurant website traffic arrives on mobile devices. The website must be built mobile-first with responsive design scaling up to desktop.

Device Type	Estimated Traffic Share	Priority
Android Mobile (mid-range)	65%	P0 — Critical
iOS Mobile	15%	P0 — Critical
Desktop / Laptop	15%	P1 — High
Tablet	5%	P2 — Medium

4. Website Structure & Pages

The website will be a single-page application (SPA) with smooth scroll navigation. All content is accessible from one URL (royalmandihouse.in) with anchor links to each section.

4.1 Section Inventory

Section	Anchor	Priority	Description
Navigation Bar	#top	P0	Fixed navbar with logo, links, call button
Hero / Slideshow	#home	P0	Full-screen auto-sliding food photography with taglines
Why Us Bar	#highlights	P1	4 USP icons: Quality, Fresh, Flavors, Hygiene
About Us	#about	P1	Restaurant story, Halal cert, Unlimited Rice offer
Menu Categories	#menu-categories	P0	8 visual category cards linking to full menu
Full Menu	#menu	P0	Tabbed complete menu with prices
Signature Dish Spotlight	#spotlight	P1	Honey Chilly Chicken parallax feature section
Gallery	#gallery	P1	Masonry food photo grid with lightbox
Reviews	#reviews	P0	3 Google review cards with star ratings
Blog	#blog	P2	3 SEO blog post cards
Location & Contact	#contact	P0	Google Maps embed + contact details
Footer	#footer	P0	Logo, links, social icons, copyright

5. Functional Requirements

5.1 Navigation Bar

- Must remain fixed/sticky at the top of the viewport on scroll
- Must contain: Logo (left), Nav Links (center), Call Now button (right)
- Nav links: Home, Menu, Gallery, Reviews, Blog, Contact
- On mobile: links collapse into hamburger menu with smooth open/close animation
- Navbar must shrink in height after scrolling 80px (transition: all 0.3s ease)
- Call Now button must use tel: link to +91 77954 16101
- Active section link must be highlighted in gold

5.2 Hero Section

- Full-screen height (100vh) on all devices
- Background cycles through minimum 4 food photographs automatically
- Crossfade transition between slides, interval: 4 seconds
- Each slide has a unique headline and subheadline text
- Slide indicator dots visible at bottom center
- Two CTA buttons: 'View Menu' (scrolls to menu section) and 'Call to Order' (tel: link)
- Gold eyebrow text: 'HALAL CERTIFIED · MANGALORE'S FINEST'
- Dark overlay on background images to ensure text readability (rgba 0,0,0,0.55)

5.3 Menu System

- Category cards section: 8 cards in a responsive grid (4 col desktop, 2 col mobile)
- Each category card: food photo background, category name overlay, hover effect
- Full menu section: tabbed navigation with 10 tabs
- Tab labels: Mandi, Biryani, Starters, Chinese, Pizza, Burger, Noodles, Soup, Combos, Kunafa
- Each tab panel: list of items with name (left) and price (right)
- Active tab indicated by gold underline with sliding animation
- All menu data from NH.pdf source document — complete and accurate
- Prices displayed in ₹ format (e.g., ₹220/-)

5.4 Gallery

- Masonry grid layout with 6–8 food photographs
- Images sourced from Pexels (free stock) matching dish categories
- Hover state: dark overlay + magnifier icon
- Click opens lightbox with full-size image view
- Lightbox supports keyboard navigation (Escape to close, arrow keys)
- All gallery images must have descriptive alt text for SEO

5.5 Reviews Section

- Display exactly 3 Google reviews from provided screenshots
- Reviewer names: Naziya Naziya, Nisha Nisha, Haseena Irfan
- 5-star rating displayed as gold star icons for each review
- Review text cleaned of emoji for professional presentation
- 'See More Reviews on Google' button linking to Maps profile
- Google Maps link: <https://maps.app.goo.gl/5GRFSYKUNB5YD7my8>

5.6 Blog Section

- 3 blog post cards with Pexels food images, titles, excerpts, and Read More links
- Blog post 1: 'What is Mandi? The Story Behind Arabia's Most Beloved Dish'
- Blog post 2: 'Al-Faham vs Broasted Chicken — What's the Difference?'
- Blog post 3: 'Why Mangalore is Falling in Love with Arabic Food'
- Each article page must include target keywords naturally for SEO
- Articles written with minimum 400 words each

5.7 Contact & Location

- Google Maps iframe embed using restaurant's exact pin
- Address: Ground Floor, Beauty Plaza Building, Balmatta Rd, near Roopa Lodge, Hampankatta, Mangaluru, Karnataka 575001
- Phone number displayed and clickable (tel: link)
- Operating hours: Open All Days — 12:00 PM to 12:00 AM
- Halal certified badge visible in this section

6. Non-Functional Requirements

Requirement	Specification
Page Load Speed (Mobile)	Under 3 seconds on 4G connection
Lighthouse Performance Score	Minimum 80/100
Lighthouse SEO Score	Minimum 95/100
Lighthouse Accessibility Score	Minimum 85/100
Mobile Responsiveness	Fully responsive from 320px to 1920px width
Browser Support	Chrome, Safari, Firefox, Edge — latest 2 versions
SSL Certificate	HTTPS required — provided by Netlify
Image Optimization	All images WebP format, max 200KB each
Font Loading	Google Fonts preloaded to avoid FOUT
Animations	Respect prefers-reduced-motion media query

7. SEO Requirements

7.1 On-Page SEO

- Page title: 'Royal Mandi House | Best Mandi Restaurant in Mangalore — Hampankatta'
- Meta description (160 chars max): mention Mandi, Mangalore, Halal, Hampankatta, Biryani
- One H1 tag only: 'Best Arabic Mandi Restaurant in Mangalore'
- H2 tags for each major section
- All images have descriptive alt text including location keywords
- Internal anchor links between sections
- Canonical URL tag pointing to <https://royalmandihouse.in>

7.2 Schema Markup

- LocalBusiness schema (JSON-LD) with: name, address, phone, openingHours, cuisine, geo coordinates
- Restaurant schema type with servesCuisine: ['Arabic', 'Indian', 'Chinese', 'Halal']
- priceRange: '₹₹' (₹200–₹600 per person)
- aggregateRating from Google reviews

7.3 Technical SEO

- XML sitemap at royalmandihouse.in/sitemap.xml
- robots.txt allowing all crawlers
- Open Graph meta tags for social sharing (Facebook, WhatsApp preview)
- Twitter Card meta tags
- Google Search Console submission on day of launch
- Google Business Profile — must be created separately by owner at business.google.com
